

REMARKS

Reconsideration of the present application, as amended, is respectfully requested. No claims have been amended, added, or canceled. As such, claims 1, 3, 4, 6, 8-11, and 14-39 remain pending in the present application.

The drawings are objected to for various informalities. Applicants submit herewith formal drawings of Figures 1-8 and request that the objection to the drawings be withdrawn.

The disclosure is objected to for various informalities. Applicants have amended the specification as suggested by the Examiner. In addition, the reference to Figure 1d and screen 21e has been removed. Applicants respectfully request that the objection to the disclosure be withdrawn.

Claims 1, 3, 4, 8-11, 21-37, and 39 stand provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-2, 6-11, 17-18, and 22-27 of co-pending Application Serial No. 10/328,438. Applicants hereby submit a Terminal Disclaimer and request that the provisional rejection be withdrawn.

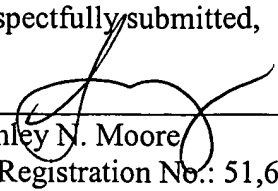

Applicants note that claim 6 is noted as being withdrawn. Applicants respectfully submit that claim 6 has not been withdrawn, but remains pending in the present application. Please note the previous Office Actions and responses thereto state that claim 6 is a pending claim. Applicants respectfully submit that claim 6 is a currently pending claim and should pass to issuance along with pending claims 1, 3, 4, 8-11, 21-37, and 39.

In view of the above amendment, applicant believes the pending application is in condition for allowance.
